**Database:** Mongo DB

#### Position

- Write interface code, design the databases
- Learn the process of website design
- Handle CRUD, use Node JS , React JS
- Role Admin, User, login, register
- Use React JS make user interface, show data from db to home- Add function shopping cart , users, checkout, categories, products...

### DOWN GAME

09/2021 - 12/2021

Coder

- Build Download game website written HTML, CSS, JS, Node JS, Vue JS
- Source code: <https://github.com/nguyendat01qb/down-game>

**Programming Language:** JavaScript

**Framework:** Node JS, Express JS, Vue JS

#### Position

- Write interface code, design the databases
- Handle CRUD, use Node JS , Vue JS
- Role Admin, User, register, login
- Use Vue js make user interface, show data from db to home
- Add function shopping cart , users, checkout, categories, products,...

### MOVIES

01/2022 - 02/2022

Coder

- Build album web written React JS Framework
- Show video list by category and list of all videos use API
- Demo: <https://moviereactclone.herokuapp.com/>

**Programming Language:** JavaScript

**Framework:** React JS

#### Position

- Write interface code use React JS Framework

### MY INFORMATION

01/03/2022 - 03/03/2022

Coder

- Build Information web written React JS
- Demo: <https://nguyenvandat.herokuapp.com>

**Programming Language:** JavaScript

**Framework:** React JS

#### Position:

- Write interface code use React JS Framework

### FASHION SHOP WEB PROGRAMMING

02/2022 - 08-2022

Coder

- Build Fashion shop website written html, css, jquery, api, ajax, ruby on rails, handlebar
- Use gem devise, rails\_admin, cancancan, handlebar, jwt, active storage, active text, omniauth....
- Building function with teamwork
- Demo:

**Programming Language:** Ruby, HTML, CSS, JQuery, Handlebar.

**Framework:** Ruby On Rails

**Database:** MySQL

#### **Position**

- Write interface code, design the databases and Eloquent ROR
- Learn the process of website design
- Handle CRUD, use Framework, js query, ajax, write api, jwt
- Add function shopping cart and cart item, role, checkout, manager product, user, product order, product favorite, blog, banner, comment, post, dashboard, categories, export csv, excel, pdf, statistical....
